Conference center fees are imposed by specific hotel facilities pursuant their agreements with the City. This fee applies only at certain hotel facilities and is imposed on charges for rooms or accommodations in the City in a similar fashion as the City accommodations tax.

The conference center fee applies to charges for sleeping rooms, meeting rooms, display rooms, banquet rooms, or other special rooms. This fee is in addition to the City accommodations tax. Because this fee is imposed by the hotel operator, and is not a tax, there is no exemption for purchases by government, religious, and charitable organizations.
