

Welcome to Walnut Creek Golf Preserve, Colorado’s first golf preserve, home to more than 77 wildlife species as well as a staggering variety of native plants. Walnut Creek Golf Preserve is more than just a golf course, we’re an Audubon Certified Signature Sanctuary with our 215 acres sustainably managed to preserve and support wildlife habitat. Founded in 1999, this award-winning Championship course offers the most natural and unspoiled public links style golf experience in Colorado. The sweeping mountain views, gently rolling hills, and the abundance of wild prairie grasses allow you to experience links golf the way nature intended.
