VOLUNTEERING

LARGE GROUPS

Our City's Adopt-a-Space program is great for businesses and large groups. Youth groups under the age of 16 must be accompanied by an adult.

Adopt-a-Street

Any civic-minded group or individual is welcome to adopt-a-street. The Adopt-a-Street Program requests each group sign up for a one-year commitment, which can be renewed annually. Each group will be supplied with an ample amount of reflective vests to be worn during their clean-up times and orange bags for the groups to use in the collection of trash/debris.

Adopt-a-Trail, Park, or Space

Cleanups offer participants the chance to explore details of the urban environment that often go unnoticed. Cities are part of our ecosystems and beautification projects help to solidify understanding of these complex relationships. The diverse cultural, economic and social environment of Westminster provides occasion to develop personal knowledge of and explore the opportunities and challenges facing urban communities. Joining in organized cleanups also presents the chance for positive interaction with diverse peoples from Westminster's neighborhoods.

City Projects

We offer a variety of large scale volunteer projects from large scale trash clean ups, painting park benches, sprucing up camping sites, and many additional projects on a one time basis. When you volunteer with the City of Westminster, you become an invaluable part of our team, helping us provide valued programs and services for our community. While giving back, you also gain valuable skills and meet diverse people. We value our volunteers and hope you will join us!
